RE: Kay Kimbell No.1-29 Jicarilla  
D-29-25N-5W, Rio Arriba County

Gentlemen:

With reference to your letter of January 26, 1962, regarding deliverability test on the above subject well.

Please be advised that this well has been temporary abandon as of September 1, 1961. The well has a packer set @ 6760 ft. and the tubing has 1000 feet of frac sand from 6883 to 5883. Due to the low I.P. we are considering plugging.

Yours very truly,

Kay Kimbell Oil Operator

*John Carothers*
