(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

April 10, 1957

Schultz-Canyon Largo Unit 900
Well No. 3-23 is located 990 ft. from SW line and 1,100 ft. from E line of sec. 23

SW 1/4 Section 23 T 25-N R 6-W N.M.P.M.
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Schultz Canyon Rio Arriba County New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 6,652 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudlogging, cementing points, and all other important proposed work)

East half of Section 23 is dedicated to this well.

Propose to spud with "shot hole" rig; then drill with rotary tools to the bottom of the Pictured Cliffs formation, the top of which is expected at about 2,700 feet. Completion with cable tools, perforating and water fracturing, and/or shooting with nitro-glycerin as conditions warrant.

Casing program: 90 feet of 8-5/8" new 8 rd. thk. 2 1/2" casing. Circulate cement to surface, using at least 70 sacks cement.

5-1/2" O.D. J-55 1 1/2" or better casing - to be set through Pictured Cliffs formation - cemented with 100 sacks regular cement. To be perforated for hydro-fracturing, etc. as necessary.

1" tubing to be set within 20 feet of total depth for production.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Title

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes the need for transparency and accountability in the management of the organization's resources.

2. The second part of the document outlines the various methods and techniques used to collect and analyze data. It includes a detailed description of the experimental procedures and the statistical methods employed to interpret the results.

3. The third part of the document presents the findings of the study. It includes a series of tables and graphs that illustrate the data collected during the experiment. The results show a clear correlation between the variables studied, and the findings are discussed in the context of the existing literature.

4. The fourth part of the document discusses the implications of the study and the potential applications of the findings. It highlights the need for further research in this area and suggests several directions for future work.

5. The fifth part of the document is a conclusion that summarizes the main points of the study and reiterates the importance of the findings. It also includes a list of references to the works cited throughout the document.
