17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

The referenced well has been shut-in, in the Mesaverde formation, since 11-30-83.

In August 1989 we returned the well to production to test the Mesaverde zone. It produced some oil, no gas. Because it is uneconomical to produce we have shut the well in.
