MOUNTAIN STATES PETROLEUM CORPORATION

February 8, 1960

Oil Conservation Commission
1000 Rio Brazos Road
Aztec, New Mexico

Dear Mr. Kendrick:

Please refer to your letter of January 27, 1960 regarding the tubing in our Walter Howard wells #1 and #2.

Walter Howard well #2 has been tubed to 3401' with 1 $\frac{1}{4}$ " tubing. This work was completed February 6, 1960.

Walter Howard #1 has not been tubed due to the maddy condition of the roads. We are this date requesting The Secretary*Director of the Oil Conservation Commission for permission to produce Howard #2 without tubing.

Very truly yours

F J Ray
