Dear Mr. Furse:

We have checked casing and tubing data on the 1965 deliverability test which you recently submitted for your Jicarilla Apache "F" #7 well in E-2+25N-5W. Comparing it with our records we find the following discrepancy:

You indicate casing depth at 3774 on the test and our earlier records show 3908.

Will you please check and let us know the correct information. In the event you find our information to be correct I would suggest that you notify El Paso Natural Gas Company.

Yours very truly
