

OIL CONSERVATION COMMISSION
1000 RIO BRAZOS ROAD
AZTEC, NEW MEXICO

June 11, 1962

*E. L. Fundingsland
1402 Denver U.S. National Center
Denver, Colorado*

Dear Sir:

On February 26, 1962 notice of intention to drill was received in this office for your #9-G Dunham well located 920 feet from the West and 890 feet from the South, Section 14-25N-2W.

This location was approved in error, as no plugging bond has been posted to cover this operation. New Mexico Oil Commission rules and regulations require that either a \$5000 one-well plugging bond or a \$10,000 blanket plugging bond be provided the Commission for approval prior to commencing drilling operations.. The purpose of this bond is to insure that the well be properly plugged and abandoned before it is left by the operator.

The above-mentioned approval of notice of intention to drill is hereby rescinded. If it is your intention to drill this well or if the well has already been spudded please furnish the Commission a bond as specified above immediately. We are enclosing some bond forms which you may use for this purpose.

Yours very truly

*Emery C. Arnold
Supervisor, District #3*
