VALUATION AND RISK COMPARISON:

ADJUTANT GENERAL'S OFFICE

C

Figure 1: Schematic representation of the experimental design. The diagram illustrates the sequence of events in the experiment: a stimulus (a face) is presented, followed by a response (a button press), and then feedback (a light or sound). The sequence is repeated for multiple trials. The diagram is divided into two main sections: 'Stimulus' and 'Response', with a 'Feedback' section at the bottom. The 'Stimulus' section shows a face with a red dot indicating the location of the stimulus. The 'Response' section shows a hand pressing a button. The 'Feedback' section shows a light or sound indicating the outcome of the response.
