Re: Request for exception to Statewide Rule
107 (e)(1) for Amerada's Apache "F"
Well No. 9, located in the SE/4 Sec. 16-
25N-5W, Rio Arriba County, New Mexico

Attention: Mr. A. L. Porter, Jr., Secretary-Director

Gentlemen:

Permission is hereby requested for an exception to Statewide Rule 107 (e)(1) for Amerada Petroleum Corporation's Apache "F" No. 9, located 1120 feet north of south line and 1120 feet west of east line of Section 16-25N-5W, Rio Arriba County, New Mexico.

In the event production is obtained in the Gallup formation, we propose to run a string of 2-7/8 inch tubing to approximately 6500 feet for Gallup production and one string of 2-7/8 inch to approximately 7500 feet for Graneros production.

A DV collar will be set at 4000 feet and sufficient cement used to cover the Chacra and Picture Cliffs formations. If the Gallup proves non-productive, sufficient cement will be used on the Graneros string to bring it above the Gallup formation.

Respectfully submitted,

AMERADA PETROLEUM CORPORATION

R. S. Christie
