Foreman*

*Re: Communication Test,
#9 Jicarilla F,
P-16-25N-5W*

Dear Dan:

*Either you have reversed the upper and lower zone pressures on
the first section of this test or there is communication between
the zones.*

*Please determine which conclusion is correct and if there is
communication take immediate action to separate the producing zones.*

Yours very truly

*Emery C. Arnold
Supervisor, District #3*
