

OIL CONSERVATION COMMISSION

SANTA FE, NEW MEXICO

4 October 1948

Mr. James H. Gardner
Gardner Petroleum Company
Tulsa, Oklahoma

Dear Mr. Gardner:

Your one-well bond for five thousand dollars and form C-101, Notice of Intention to Drill, were received here this morning.

Due to several minor discrepancies and errors in making out your bond, we cannot accept the bond or officially approve the drilling until proper correction has been made. However, since I know you are acting in good faith, I am extending tentative approval so that you can continue your plans without delay.

This letter will constitute temporary approval of your request to drill an exploratory well in the C-SW-NW of Section 14, Township 25 North, Range 2 West, Rio Arriba County, New Mexico. The bond and C-101 will be returned with a full explanation. Please return these, properly completed as soon as possible.

Very truly yours,

FRANK C. BARNES
Geologist
