Dear Mr. Arnold:

We had scheduled and tested the Canyon Largo No. 33 located in Unit P, Sec. 12-25-6, Meter Code No. 74-449, in Test Area No. 18, shut-in from July 7 to July 14. This well was not properly shut-in and therefore the Annual Deliverability test sent to you is in error.

This well will be rescheduled and retested in a later area.

Yours very truly,
