CASTING RECORD

Quantity per foot	Through inch	State	Amount	Kind of stone cut and drilled from	Location	Remarks
It is of the greatest importance to have a complete history of the well. Please state in detail the dates of reworking, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was "sidetracked" or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. Shootings or bridges were put in to test for water, state kind of material used, position, and results of pumping or bailing.
