Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Prior sundry notice dated 12/3/86 requested permission to produce well under packer until April 1, 1987, at which time we would repair casing or abandon well.

Due to bad weather, we were unable to get pump to location, as we didn't want to expend money to have trucks pulled in to the well site; consequently, the well has been pumping only about three weeks and is still making all water.

Request permission to extend time to pump test this well on packer until July 1, 1987 before determining whether it is feasible to repair the casing leak, or if the well should be plugged and abandoned.

18. I hereby certify that the foregoing is true and correct
