Dear Mr. Gumz:

We have received your letter of July 11, 1967, regarding your future plans for the above well. You have stated that it is your intention to possibly produce this well by the use of new methods which you are now testing on nearby wells. In view of this information, we will delay taking any action toward making you plug this well until you have determined whether or not you can successfully produce it. Will you please send us a status report periodically advising us of your success?

Yours very truly,

Emery C. Arnold
