G-23-24N-1W

Dear Mr. Kitchens:

The State of New Mexico has contacted us regarding plugging the above captioned well. In searching our records we find that you did this work for Dyna Ray Oil & Gas Company, Inc. (our predecessor Company) on October 22, 1970. This was one of twelve wells that you plugged for Dyna Ray during October of 1970.

The State of New Mexico Oil Conservation Commission finds not record of form C-103, Subsequent Report of Plug and Abandonment in their files and we do not have a copy of this form in our office. We have checked with our predecessor Company (Dyna Ray and/or Shar Alan Oil Company) as well as our Field Office in Lindrith and cannot locate the necessary form or information.

For this reason we wonder if you could furnish us with the information needed in order that we may file the form C-103. A copy of the letter from the State of New Mexico is enclosed setting out the information that is needed.

Your assistance to us regarding this matter will be appreciated.

Very truly yours,

(Mrs.) Joyce B. Sparks
