Dear Mr. Chavez:

Reference our recent telephone conversation and your letter of September 7, 1978 I am enclosing form C-103 on both of the above captioned wells.

A copy of your letter and instructions and the C-103's have been forwarded to our field supervisor, Mr. Albert Owen, P. O. Box 1, Lindrith, New Mexico 87029 (area 505-774-6672), as he will be in charge of having the work done.

If there are any changes to be made in our filings or other information required please contact either this office or Mr. Owen or both.

We are also filing Form 9-331 with the United States Department of the Interior, Geological Survey Department. We did not know if this was necessary but thought it would be best to do so as we think all of our New Mexico Field is Federal.

Any further assistance you can give us regarding plugging and abandoning of these wells will be appreciated.

Very truly yours,

(Mrs.) Joyce B. Sparks
