Re: Annual Deliverability Tests
AXI Apache N #6 & AXI Apache N #3

Dear Mr. Whitman:

P
We have compared the flow data which was substituted for the December, 1967, tests for the subject wells with the average daily rate for each well.

The substitute flow rates apparently were for the entire flow chart instead of being the average daily rate.

Therefore, we are revising your allowables as of February 1, 1968, using the tests submitted on March 4, 1968.

Y
The tests submitted March 4, 1968, shall also serve as the 1968 annual test.

Yours very truly,

A. R. Kendrick
Engineer, District #3
