

ROBERT L. BAYLESS, PRODUCER
APPLICATION FOR PERMISSION TO VENT
CASINGHEAD GAS

RECEIVED
DEC 14 1983
BUREAU OF LAND MANAGEMENT
FARMINGTON RESOURCE AREA

1. LEASE: John S. Dashko #1 (NM 03010)
2510' FSL & 790' FEL
Section 11, T24N, R7W
Rio Arriba County, NM
2. ESTIMATED PRODUCTION: 20 bbls. oil per day
53 MCF gas per day
3. VALUE GAS VENTED: Estimated gross \$159.00 per day produced
4. LOCATION NEAREST GAS CONNECTION: El Paso Natural Gas - approximately
2640 feet away.
5. REASON FOR APPLICATION: There is an out-of-date gas contract on
this casinghead gas which needs to be rolled over by the
purchaser. Although the gas from this well is dedicated to
a gas contract, the time required to actually get the gas
connected could be substantial. We would like to produce the
oil from this well and vent the gas until a gas connection is
made.

I hereby certify that the rules and regulations of the Minerals Management Service have been complied with and that the information given above is true and complete to the best of my knowledge and belief.
