If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Elm Ridge will become operator (replacing Floyd Oil Company for which OCD Form 104 will be filed). Well will be temporarily abandoned (it is now TSI because it is uneconomic to produce at current prices and flow) pending outcome of 12F well in NWSW Sec. 17. If 12F is successful, then 12E will plugged. If 12F is unsuccessful, then 12F will be plugged and 12E returned to production when economic. Plugging procedure will be requested once decision is made as to which well is best.
