Casing Integrity Test

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

It is proposed to test the casing integrity of the Ruddock 7A in lieu of permanent abandonment. The Ruddock 7A was Temporarily Abandoned on October 5, 1988 (CIBP @ 5660' with 5 sxs cement). Extension of the Temporary Abandon Status is requested as the Ruddock 7A is a direct offset to the Ruddock #3 which is a Pictured Cliffs producer. If the casing should fail in the Ruddock #3, the Ruddock #7A would be used as a replacement well. Upon BLM approval of this proposal, Graham Royalty, Ltd. will perform a casing integrity test within 15 days and notify a BLM representative 48 hours in advance of said test.

NOTE: Casing tested to 500# on August 20, 1990. Held ok.
