17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Our APD submitted 11-30-83 and approved 1-06-84 indicated that the hydrocarbon potential of the Dakota, Gallup and Mesa Verde formations would be tested.

It is our intention to leave the Mesa Verde out of our completion program at this time and return to it at a later date. We do intend to test the Greenhorn formation and therefore request approval to test and complete the Greenhorn formation along with the Dakota and those zones included in the state defined Gavilan Mancos pool.
