Denver, CO 80202

Re: Overproduced wells

Dear Mr. Fitzgerald:

As per our earlier telephone and face-to-face conversations, the below listed wells are overproduced in their gas volumes and are directed shut-in. The overproduced volumes are based on the November production report.

Howard Federal 1 #8	39,738 MCF O/P
Howard Federal 1 #11	47,395 MCF O/P
<u>Johnson Federal 12 #5</u>	7,838 MCF O/P

These wells are to be shut-in until they are back in balance.

Sincerely,

Frank T. Chavez
District Supervisor

FTC/dj
