BEFORE THE OIL CONSERVATION DIVISION
OF THE STATE OF NEW MEXICO

IN THE MATTER OF THE APPLICATION
OF BCO, INC. FOR ADMINISTRATIVE
APPROVAL OF UNORTHODOX LOCATION

NO. _____

APPLICATION FOR UNORTHODOX LOCATION

Applicant requests the Division Director to approve the proposed unorthodox location described herein and for the reasons herein stated:

1. Applicant proposes to drill a well located 250'FWL and 2040'FSL of Section 21, T-24-N, R-7-W, N.M.P.M., Rio Arriba County, New Mexico. A copy of form C-102 is attached hereto as Exhibit "A".
2. That such location is unorthodox in that a standard well location would require that the well be located no closer than 330'FWL of Section 21.
3. That topographical conditions in the area prohibit drilling a well at a standard location. Attached hereto as Exhibit "B" is a portion of a topographical map showing topographic conditions in the area of the proposed well.
4. Applicant proposes to operate the well. That the only offset operator affected by the unorthodox location is Union Texas Petroleum Corporation which owns and operates the oil and gas rights underlying the SE/4 of Section 20, T-24-N, R-7-W, N.M.P.M., Rio Arriba County, New Mexico. Attached hereto is Exhibit "C" which is the waiver of Union Texas Petroleum Corporation to said non-standard unorthodox location.

WHEREFORE, Applicant requests that the Division Director grant an exception to the applicable well location requirements without notice or hearing due to topographical conditions and due to waiver from the only affected offset operator.

Respectfully submitted,

Post Office Box 1290

Dear Mr. Cooper:

In accordance with our telephone conversation of today, I am enclosing a copy of BCO, Inc.'s form C-102 showing a location for its proposed well in Section 21, T-24-N, R-7-W, N.M.P.M., Rio Arriba County, New Mexico. This location is 250'FWL and 2040'FSL of Section 21.

As I indicated to you during our telephone conversation, we will be making application to the New Mexico Oil Conservation Division for an exception to its well spacing requirements in this instance, due to the topography of the area. Because of topography we are precluded from drilling a well at a standard location. I am enclosing a portion of the topographic map showing the approximate well location and the surrounding topographic conditions.

If you are inclined to waive a standard location, please indicate by executing the extra copy of this letter at the appropriate place provided below.

Thank you for your prompt consideration of this matter.

Very truly yours,

Ernest L. Padilla
