13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

In reply to your letter dated Mar 20, 2001, Merrion has returned the well to production in early March after repairing a gas flowline leak.

Anticipated gas sales are about 10 mcf/d, which is sufficient at today's gas prices to pay the operating costs incurred.

If further is required, please advise. (Attention: Brian Davis, Petroleum Engineer)
