**Southland Royalty Company**

February 18, 1986

Mr. Frank Chavez  
New Mexico Oil Conservation Commission  
1000 Rio Brazos Road  
Aztec, New Mexico 87410

Dear Mr. Chavez,

Southland Royalty Company requests a venting permit for testing the Medio Canyon #10 (West Lindrith Gallup-Basin Dakota - "M" Section 35, T24N, R04W).

This well was completed 11-09-85. The well was swabbed for a considerable period of time, but was unable to flow. Pumping equipment has been installed and we need to pump the well and vent the gas to obtain a valid GOR test.

We are installing pumping equipment on the Hill Federal #3 (Gavilan Mancos "O" Section 36, T25N, R02W). We would also like to pump the well and vent the gas for a few days for further testing and evaluation.

Your consideration in this will be greatly appreciated.

Sincerely,

*James W. Smith*

James W. Smith  
District Production Superintendent
