☐ Non-Routine Fracturing
☐ Water Shut-Off
☐ Conversion to Injection
☐ Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Follow up to phone call from your office to Pat Archuleta of our Denver office in February 1999.

4/9/99 MIRU Swab rig and reset a production pit and a separator on this well as the old ones had been removed. The well is heavily loaded with water and oil and will flow a little while after each swab run. Will continue to swab and hopefully return the well to production status.

Should you have any questions please contact me at the number listed above.

Thank you,
Mary Corley
