17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

ARCO Oil and Gas requests an extension of the 30 day vent gas authorization granted in the APD. ARCO requests authority for venting on the Tonkin #6 for an additional 30 days so that the testing can be completed and the pipeline installed. Since the well was first tested December 20, 1986, this 30 day extension would expire February 20, 1987.

As of January 2, 1987, the well was producing 23 BOPD, 2 BWPD and gas too small to measure.
