MOBIL requests a 30 day extension of flaring/venting of casing head gas of this new well to continue to produce
oil and monitor the production performance of this well. The extension be from September 1, 1991 to October 1,
1991. The gas production varies up to a maximum of 92 MCF per day.

Due to factory pipe coating and delivery delays, Mobil will not receive the piping until after Labor Day and is
expecting to have pipeline gas sales by September 9, 1991.

This confirms telephone notification to Dwayne Spencer of the Farmington BLM on August 30, 1991.
