DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

On May 31, 1956, 5 1/2" casing was landed at 3210 feet and cemented with 100 sacks cement. After waiting on cement for 24 hours, casing and water shut off were tested with 1000 pounds for 30 minutes with no drop in pressure. Completion operations were resumed.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
