Attn: Mr. A. L. Porter, Jr.  
Secretary-Director

Dear Mr. Porter:

Attached is a copy of a Notice of Intention to Drill and a letter requesting approval of a non-standard location for the Bolack-Greer Inc. Canada Ojitos, Unit 16, Well No. 1. *A-16-25A-10*

Pool rules in the Puerto Chiquito pool require that a standard location be within 165 feet of the center of the quarter-quarter section. Actually, although this location is non-standard, it is located further from the unit boundary than would be a standard location. You will note that the request that the well be located at this spot was made by the Forest Ranger of the Santa Fe National Forest, Mr. Jay Eby.

I recommend that an administrative order be issued approving the location. The attached copy is for your file in the Santa Fe Office.

Yours very truly

Emery C. Arnold  
Supervisor, District #3
