L-30-24N-1W

Dear Sir:

The location of subject well has been confused. Form 9-331a shows 1850 feet from the South line and 790 feet from the West line while form C-128 indicates the location to be 1850 feet from the South line and 910 feet from the West line.

File form 9-331a stating the exact location of the well.

Yours very truly,

cc: USGS, Farmington
