Re: Request for Permission to Produce and
Market Production from Gallup Formation
of "S" Well 16-2

Gentlemen:

As provided by Rule 504 of the Rules and Regulations of the New Mexico Oil Conservation Commission, request is made for permission to produce and market 500 barrels of crude oil from the Gallup formation of Northwest Production Corporation "S" well #16-2 during test period. Lack of storage prevents adequate testing of the Gallup section in well #16-2 without the relief requested.

"S" well #16-2 is located 990' FSL and 990' FWL, Section 2, T-24-N, R-4-W, Rio Arriba County, New Mexico. It has been dually completed in the Gallup and Dakota formations; however, the Dakota formation is shut in and will remain shut in until testing of the Gallup formation is completed and a packer leakage test is commenced.

Very truly yours,

NORTHWEST PRODUCTION CORPORATION

Ray Phillips
