If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

In response to BLM letter #SF-078562 (WC) 3162.3-4 (016) dated 10-5-87, the following work has been done to bring this well into compliance for final abandonment:

1. Removed the trash, concrete, and risers from the well pad.

2. Disked & seeded the access road from Grace Petroleum's No. 19-2 Lybrook location to the subject well with BLM Seed Mix No. 1. Waterbars were spaced as follows:

% Slope	Spacing Interval
Less than 2-1/2%	200 feet
2-1/2% to 5%	150 feet
6% to 9%	100 feet

A berm was constructed at the start of the access road to restrict vehicular access.

18. I hereby certify that the foregoing is true and correct
