(Give explanation below)

Remarks:
Authorization was given by letter of Aug. 30, 1961 to produce 1000 barrels of oil while testing to use in work over operations. Well has been shut in approximately one month. We would like to move 500 bbls. oil to make room for the additional oil when we clean out the hole just prior to re-working operations scheduled to begin within three weeks. Permit requests were made to U.S.G.S. Nov. 2, 1961 for re-working the well. The remaining oil on hand is expected to be used in the workover operation.
The undersigned certifies that the Rules and Regulations of the Oil Conservation Commission have been complied with.

Executed this the 7 day of November 19 61

Approved 11-5 19 61
