17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details. For give pertinent data, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *

5-28-65 injected approximately 50 Bbls. of steam and 30 Bbls. New rep'd alcohol to increase permeability of water with Colling Rock. Started injecting approximately 500 Bbls. water per day at 325 pounds injection pressure.

We hope to increase injection per day up to 750 Bbls. per day as soon as we have a bigger pump in our water well to get more volume.
