3. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

After further examination and testing, M&M Production & Operation, Inc., has decided to plug and abandon the AKE 1-11. We have found it would not be cost beneficial to repair and produce this well, with the casing leak. We have been in contact with several rig companies and have been informed they are still at least one to three months lagging.

We are requesting your guidance on the procedures for abandonment.

4. I hereby certify that the foregoing is true and correct
