17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *

Per attached request -

Well completed as an oil well in December, 1958. Clinton Oil Company became Operator effective 12-1-71 and well name was changed to USA Arthur Duff #1. Clinton changed its name to Energy Reserves Group, Inc., in February, 1976. This well has always been primarily an oil well. It has made enough gas in the past to have a gas connection and sales. However, gas production had decreased to the point of just being sufficient for fuel gas. Last gas sales were in January, 1977. Oil production in June, 1978, averaged 14 BOPD.

It is planned to continue producing this oil well until it becomes uneconomical to operate.
