Re: Mims-Carson No. 1
Sec. 4-24N-12W
San Juan Co., N. M.
Ser. No. SF 078073

Dear Mr. Arnold:

Attached are two copies of USGS approved Form 9-331 on the abandonment of the captioned well. You may recall that I have previously discussed this matter with you.

If any additional forms need to be filed, would you please advise.

Very truly yours,

John M. Heller

Completion or Recompletion Report and Log

17 DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of completion of proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all marked and measured points pertinent to this work.)*

Well was drilled by Kenneth Murchison in 1956. 9-5/8" surface casing set @ 120' w/180 sx. cement. 5-1/2" production casing @ 4580' w/200 sx. cement. Gallup section perforated 4318' to 4338' & 4436' to 4444' and sand-oil fractured. Completed on Feb. 26, 1957 for 10 BOPE and 39. MCFGPD.

Well was subsequently sold to El Paso Natural Gas Products Company in August of 1957 and was operated by them.

An Assignment of Leases, executed May 8, 1958, records this property being assigned to Gas Producers Corporation. The well was supposedly temporarily abandoned at that time.

Assignment in April, 1962, the Gas Producers Corporation was sold to the present owners and the operations assumed by them. An exhaustive search has been made of old records and numerous inquiries made over the last few years to ascertain information on the plugging of this well. Nothing has been found. On April 23, 1964, the well site was visited and the well has been plugged and a dry hole marker is cemented in place. There were no pits or other harmful aspects pertaining to the well site. The individuals that may have directed the plugging of this well, Mr. E. F. Cessinger and Mr. O. J. Lilly, are deceased.

18. I hereby certify that the foregoing is true and correct
