

7. Methods for handling waste disposal

Waste disposal will be disposed of by burial in the burn pit, latrine or reserve pit as applicable. A plat of the same is attached hereto.

8-9 Location of Camps and air strips

No camps or air strips will be constructed.

10. Location of layout to include position of the rig, mud tanks, reserve pits, burn pits, pipe racks, etc.

A plat of the proposed regular layout, etc. is attached. See Exhibits 4 and 5.

11. Plans for restoration of the surface

The surface will be restored as near as possible to the original condition including grading the location and reserve pits as soon as practical.

12. General description of topography and vegetation

At the point where the proposed new access road would cut off from the existing road to the Smith 3 location, the terrain is quite level; the vegetation is primarily sage brush and some native grasses.
