14. API NO.

15. ELEVATIONS (SHOW DF, KDB, AND WD)  
6915' GR

(NOTE: Report results of multiple completion or zone change on Form 9-331-C)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent data including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations in measured and true vertical depths for all markers and zones pertinent to this work.)

Swabbed well after acid job. Well making 25 MCF gas per day.  
Shut well in. SI casing pressure 489 psi.

El Paso Natural Gas Co. has agreed to connect this well to their low pressure Bisti system. Because of the extremely long period of time which is required to secure right-of-way across Indian Allotted lands we have deferred fracing this well until El Paso has made the well head connection.
