Dugan Production Corporation P.O. Box 420 Farmington, New Mexico 87499-0420 Attention: Jim L. Jacobs

Administrative Order NSL-3691

Dear Mr. Jacobs:

Reference is made to your applications dated May 21 and June 10, 1996 for a non-standard oil well location within the White Wash Mancos-Dakota Oil Pool for your existing Blanco Wash Well No. 1 (API No. 30-045-22473), located 1550 feet from the South line and 1490 feet from the East line (Unit J) of Section 2, Township 24 North, Range 9 West, NMPM, San Juan County, New Mexico.

The application has been duly filed under the provisions of Rule 104.F of the General Rules and Regulations of the New Mexico Oil Conservation Division ("Division"), revised by Division Order No. R-10533, issued by the Oil Conservation Commission in Case 11,351 on January 18, 1996.

By the authority granted me under the provisions of Division General Rule 104.F(2), the above-described unorthodox oil well location is hereby approved.

Sincerely,

William J. VeMay Director

Dear Mr. Stogner:

Dugan Production Corp. hereby requests approval for an unorthodox location for the referenced well. Copies of the well location plat (NMOCD Form C-102), topographic map, production map, and a map showing offsetting operators are attached for your reference.

Our original intent in drilling the subject well was to test the Gallup through the Dakota formations. The location was orthodox at that time for dedicated acreage of a Dakota gas well.

After drilling and logging, the Dakota formation was considered to be non-productive and the well was completed in the Gallup and Greenhorn formations.

After completing the well in the Whitewash Mancos-Dakota Oil Pool, our well location was not orthodox as it had previously been for a gas well, therefore necessitating this application for unorthodox location.

A copy of this application is being submitted to all offset operators by certified mail with a request that they furnish your office in Santa Fe with a Waiver of Objection.

Sincerely,

Jim L. Jacobs Vice-President

KF/cg

attachs.
