Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well is a commingled well in the Dakota and Gallup formations. We propose to plug off the Dakota zone by setting a cast iron bridge plug at 6119' RKB (50' above top Dakota perf) and placing 50' cement plug with wireline dump bailer on top of bridge plug. This will make the new P.B.T.D. 6069'.

18. I hereby certify that the foregoing is true and correct
