17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The approved permit to drill subject well expires on June 4, 1982. In evaluating our drilling program for 1982, this well is not scheduled to be drilled until the third or fourth quarter of 1982. We therefore ask that the drilling permit for this well be extended for as long as federal regulations will allow.
