(other) Notice of Intention to Temporarily Abandon Dakota

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

We propose to temporarily abandon the existing Dakota perforations 6424-6442', with a cast iron bridge plug to be set at 6350' and capped with approximately 50' of cement. The Dakota perforations have been acidized with 500 gal. of 15% HCL acid and our testing to date indicates that the water production will prohibit commercial production of the Dakota at this time. We plan to proceed with completion in the Gallup as indicated on our sundry notice of 4-18-84.

VERBAL APPROVAL OBTAINED FROM STEVE MASON 6-12-84.
