## 13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

A gas sales line has been laid to this well. While attempting to swab the well in and place it on production, it was discovered that sand was covering the perforations. We currently have a rig scheduled this week to remove the sand and run tubing so that it can be produced. Our current deadline of 8/1/2000 may not be feasible. We ask that a 30 day extension be granted to begin production. Every effort will be made to accomplish this prior to the previously granted deadline.

## 14. I hereby certify that the foregoing is true and correct
