Re: \$10,000 Blanket Plugging
Bond, Schermerhorn Oil
Corporation

Dear Miss Dotson:

Reference is made to your letter dated July 23, 1964,
regarding the status of the above-captioned bond.

After reviewing our records we find that your understanding of the situation is absolutely correct. The bond was indeed cancelled as to future liability and this cancellation was subsequently rescinded when you advised that the bond was to remain in effect. Therefore, the captioned bond is in full force and effect, and all of Schermerhorn's operations are fully covered.

By copy of this letter we are requesting Mr. Carnahan that he re-submit Form C-110 to our Aztec office, changing the name of the operator of the Othel Development Company well located in NE NE, Section 32, Township 25 North, Range 7 West, to Schermerhorn Oil Corporation.

We sincerely regret the error on our part and hope that this will straighten out the situation.

Very truly yours,

I. R. TRUJILLO
Administrative Assistant

IRT/og
