Re: Plans for SI Wells
Various Leases
New Mexico

We are in receipt of your correspondence dated January 28, 1993 (copy attached). These wells were shut in by Hondo Oil and Gas prior to Devon's purchase of the properties. In December of 1992, before expiration of the long-term shut-in provision, the wells were reactivated, and are producing as of this date. Our plans are to continue producing them so long as it is economically profitable to do so.

Should you need additional information feel free to contact me at the letterhead address.

Sincerely,
