Foster and Riddle
Box 8085
Albuquerque, New Mexico

Gentlemen:

A recent Commission Order extended the Ballard Pictured Cliffs Gas Pool to include areas previously included in the Otero and Canyon Largo Pictured Cliffs Pools. The order stipulates that no well will be granted an allowable without a properly executed Form C-128 "Acreage Dedication Plat" being on file which shows the correct acreage to be dedicated to each well. This plat must be signed by an operator's representative testifying to the ownership of the acreage in the dedicated area.

In checking our files we find that revised plats are needed on the following well operated by your Company in this area:

Foster & Riddle #1 Riddle Fed. B-4-25N-7W

As the effective date of the pool extension is May 1, 1959 it will be necessary that we have these plats immediately in order that the well may be given proper allowable. If you have any questions in the matter please contact us.

Yours very truly

Emery C. Arnold
Supervisor, District #3

Water and Electric
Box 8087
Albuquerque, New Mexico

Gentlemen:

A recent Water and Electric order extended the Bellard Electric Water and Electric Co. pool to include areas previously included in the Water and Electric Co. pool. The order stipulated that no well will be drilled on this area without a properly completed Form O-103 "Average Production" being on file with the Bureau of Geology and Mineral Resources. This must be signed by an operator representing the well owner in the ownership of the acreage in the dedicated area.

In checking our files we find that certain wells are located on the following well operated by your company in this area:

Water & Electric Co. 1-4-1-10

As the effective date of the pool extension is May 1, 1958 it will be necessary that we have these plans immediately in order that the well may be given proper allowance. If you have any questions or concerns please contact us.

Very truly yours,

Henry G. Arnold
Director, District 5
