Attention: Mr. A. R. Kendrick

Gentlemen:

Attached are the "Well Deliverability Test for 1973" and a revised Form C-104 for our Jicarilla "D" No. 9 well.

Due to lower line pressures beginning during the Summer of 1973, the production on this well rose substantially, resulting in a large amount of overproduction.

We request that the allowable on this well be changed to reflect the new test and be made retroactive sixty days.
