Dear Pste:

We have just received a copy of Final Application for Dual gas Completion on Northwest Production Corporation's "E" No. 2-33 well located in Section 33-26N-3W, Rio Arriba County.

On October 1, we notified Northwest Production Corporation that the packer test submitted on this well indicated packer leakage; therefore the Dual Completion Order on this well should not be written until remedial action has been taken. We sent you a copy of our letter to Northwest Production Corporation.

Yours very truly
